The following list was compiled from many sources, including Service Medals and Awards Rolls (Ancestry) and their index cards (Ancestry and findmypast), Service and Pension Records (Ancestry, findmypast and The National Archives), and the Nominal Roll of NCOs and men of the 12th Service Battalion York and Lancaster Regiment, May 1916 (Rotherham Archives and Local Studies Service, 578-K/7/7/2/1). The Nominal Roll provided in the original paperback edition of Sheffield City Battalion by Ralph Gibson and Paul Oldfield (Wharncliffe, 1998) was invaluable for the identification of men who had been granted commissions prior to the battalion leaving for Egypt.

As of October 2026, the nominal roll includes service numbers only up to 12/1500. Numbers 12/1 to 12/1111 were allocated to those who formally enlisted on 10th-11th September to form the original four companies, A-D. Those with numbers between 12/1112 and approx. 12/1500 were initially posted to the first reserve company, E; more than 240 of these men would be posted to companies A-D before the Battle of the Somme. Later recruits were initially posted to the second reserve company, F; scores of these men would also be posted later to companies A-D. (In October 1915, the reserve companies were consolidated to form the regiment's 15th Battalion.)

Comm, Commissioned (Y[es)/N[o]); DOB, Date of Birth; AOE, Age on Enlistment; DIW, Died in War (K[illed]I[n]A[ction], D[ied], D[ied]O[f]W[ounds], N[o])
